Stabiliser Spread	2.60m	8ft 6ins
Gross Weight	960kg	2112lbs
Rotation	360 degrees	
Power Source	Heavy Duty Batteries with a built in charger Plus mains capability as standard	

The HL 9 has a heavy duty chassis and boom structure with full size wheels for stability and uniformity with the towing vehicle.

Plus it has the amazing capability of being able to retract to 0.71m (2ft 4ins) wide which not only allows the HL 9 to pass through a single doorway but there is no need to remove the door etc.

The HL range of machines provide years of reliable service thanks to their high quality components manufactured by ourselves to our extreme standards.

Plus, with our minimum maintenance system it all goes together to make the HL range one of the best returns on your investment in the business.

The extremely rigid platform of the HL 9 is such a versatile machine, it enables 2 men plus tools (max.200kg) to achieve a safe working height of over 9.4m swiftly and silently using it's built in heavy duty battery power source.
